Currently, there are approximately 264,978 records on the registry. Of that number, 65,690 records have a “current” or “active” standing, making them eligible to work in federally certified nursing homes, home health agencies, hospices, and hospitals.

There are 192,417 records on the registry with an “expired” federal eligibility. These individuals are eligible to work in hospitals but not eligible to work in nursing homes, home health agencies, or hospices.

2012:

- A total of 9696 individuals successfully completed the Wisconsin-approved standardized competency test and were added to the Wisconsin Nurse Aide Registry.
- A total of 24,413 individuals renewed their nurse aide status, making them eligible to work in federally certified long-term care facilities, home health, hospice, and hospitals.

2013:

- A total of 8542 individuals successfully completed the Wisconsin-approved standardized competency test and were added to the Wisconsin Nurse Aide Registry.
- A total of 20,430 individuals renewed their nurse aide status, making them eligible to work in federally certified long-term care facilities, home health, hospice, and hospitals.

2014:

- A total of 7957 individuals successfully completed the Wisconsin-approved standardized competency test and were added to the Wisconsin Nurse Aide Registry.
- A total of 21,062 individuals renewed their nurse aide status, making them eligible to work in federally certified long-term care facilities, home health, hospice, and hospitals.

Note: A nurse aide candidate has up to one year in which to test after completing their training. For example, a candidate who completed their training in 2014 may wait until 2015 to test.
