

COLLABORATIVE:  
EARLY RECOGNITION AND MANAGEMENT OF SEPSIS IN  
NURSING HOMES

December 7, 2016  
Noon-4 PM CST

Nadine Renbarger, Associate Regional Administrator  
Midwest Division Survey and Certification  
REGIONS V AND VII

Invites you to participate in a collaborative focusing on early sepsis identification and treatment in nursing homes.

Our guest speaker will be **Dr. Steven Q. Simpson**, Professor of Medicine and Director of the Medical Intensive Care Unit at the University of Kansas Medical Center. Dr. Simpson has initiated a sepsis program in Kansas Nursing Homes that will be the basis of his presentation. We also plan to have a Kansas participating Nursing Home provide lessons learned from implementation of early sepsis recognition.

You may view the webinar by registering for the WebEx link or attend at either the CMS Regional Offices in Kansas City or Chicago. A collaborative discussion will follow at the regional offices to consider barriers and opportunities moving forward.
